

EM500

# **APPLICATION & TECHNICAL SPECIFICATIONS**

The **EM500** model from CZM was designed to be a compact one load CFA machine what makes for a much quicker set up at the job site. It may be mounted on a JohnDeere 160 tier3 or on a CAT 160 tier4 base chassis. It has a continuous crowd performed by chain all along with the rotary stroke. This feature combined with its torque gives a great productivity to the machine and allows the penetration of the auger in very hard layers of soil. **EM500** is also equipped with a mast slide, that makes it possible the swing of 360 degrees, ideal for tight access sites.
